

Modeling Portfolios

- Price List - September 2009 -

Why?

Why would you need a modeling portfolio?

Aspiring **actors** and **models** require a portfolio which shows their dynamic range when it comes to modeling/acting. This is shown initially in photographic form to agencies and potential managers when applying for a job and, as such, is very important.

We understand that in order to get noticed you'll need to show your photographs to many agents and often the best way to do this is online.

Therefore with every modeling package available we offer a password protected online gallery for you to get an instant online presence.

Package One

- 2 photo sessions
- 2x 10"x8" prints from each session included (extra prints charged at standard print prices)
- Varied locations including at least one outdoor session.
- CD of watermarked images from every session (to choose from)
- Online portfolio of watermarked images, password protected (to show friends/family/agencies)

£95

Package Two

- 4 photo sessions
- 2x 10"x8" prints from each session included (extra prints charged at standard print prices)
- Varied locations including at least one outdoor session.
- CD of watermarked images from every session (to choose from)
- Online portfolio of watermarked images, password protected (to show friends/family/agencies)
- Brown leather-look portfolio with photographs from sessions mounted

We understand that a web presence in most jobs is now essential and so we include an online portfolio hosted at Daniel James Photography in order to allow the model to remotely direct agencies to his/her gallery of photographs.

£150

Package Three

- 4 photo sessions
- 3x 10"x8" prints from each session included (extra prints charged at standard print prices)
- Varied locations including at least one outdoor session.
- CD of watermarked images from every session (to choose from)
- Online portfolio of watermarked images, password protected (to show friends/family/agencies)
- Brown leather-look portfolio with photographs from sessions mounted
- Model website hosted at webs.com including a .com or .co.uk domain i.e. modelname.co.uk custom designed to include:- About The Model/C.V, Contact Page, Gallery

£250

Package Three replaces a Daniel James Photography hosted simple online gallery with a freewebs hosted one that allows for a domain name of your choice (i.e. danieljames.net) to be used to give a much more professional impression to agencies and a custom built website.
